ROHIT S. BOROLE

DOB: 19/12/2003 ◊ **Address:** Plot no:23, Nehru Nagar, Near Ramanand Bus-stop, Jalgaon, IN

rohit.borole@mmit.edu.in ◊ Portfolio ◊ LinkedIn ◊ GitHub ◊ Leetcode ◊ Hackerrank ◊ +91 9511201253 ◊ Codechef

⬇ EDUCATION

Bachelor of Engineering, Marathwada Mitra Mandal's Institute Of Technology   *2021-2025*
Savitribai Phule Pune University – **Artificial Intelligence & Data Science**   **GPA:** 8.4

Senior Secondary, D.N.C.V.P Arts, commerce and Science College, Jalgaon   *2019- 2021*
Maharashtra Higher Secondary State Board   **Percentage:** 91%

Senior Secondary, Vivekanand Pratishtan's English Medium School, Jalgaon   *2011- 2019*
Maharashtra State Board   **Percentage:** 84%

⬇ SKILLS

Programming Languages: C/C++ (Proficient), Java, R, Python
Data Science: Tensor Flow, NLTK, NLP, Standard ML Algorithms (Regression, Classification, Clustering)
Databases: MySQL, MongoDB
Frontend: HTML5, CSS3, Bootstrap

⬇ EXPERIENCE

Data Science Intern – Psyliq   *Jan 2024 - Feb 2024*
- Fostered a neural network for the identification of Handwritten Digits using Tensorflow, Keras, and Classification Models.
- Propelled towards the HR Data Visualization with PowerBI and Stock prediction using LSTM.

Full Stack Web Developer Intern- EduNexa Tech   *Dec 2023 - Jan 2024*
- Crafted a portfolio, and responsive blog

⬇ PROJECTS

Chess Game   **LIVE**   **GitHub**
A simple chess game implemented using HTML, CSS, and JavaScript logic.

AI Chatbot with the integration of OpenAI API key   **GitHub**
Developed a simple AI chatbot that can be anything for you like Cricket Coach, DSA expert, etc. with the integration of the OpenAI powers using its API key.

Flower Image Classification Web App using CNN   **GitHub**
Built an image classification model that identifies the flower classes using a highly trained dataset with Gradio.

Hotel Review Sentiment Analysis Web App   **GitHub**
Developed a system that analyzes whether the review which the user gives is negative or positive. Carried out using the big dataset training full of the varieties of the sample reviews. The text analysis is performed using the library NLTK.

⬇ ACHIEVEMENTS & CERTIFICATIONS

Successfully Solved **100+** questions on **Leetcode**
Successfully Solved **40**+ questions on **Codechef**
Achieved **400+** Hackos on **Hackerrank**
Second price in **Ideation Competition**, organized by MMIT, Pune, 2023
Certified in "**Python for Data Science, AI & Development**" by Coursera, 2023
Certified in "**Introduction to R Programming for Data Science**" by Coursera, 2023
Certified in "**Deep Learning for Beginners**" by Simpilearn, 2024.
